"The Kind We Raise In Missouri"

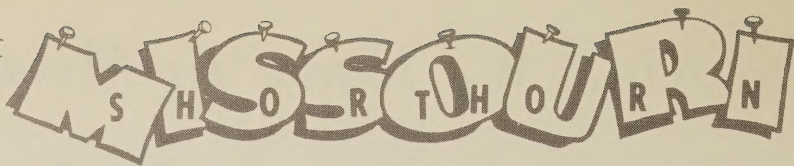

This Missouri bred and produced pair of Shorthorns developed into ultimate champions at Chicago . . . possible other potential champions can be found in this sale.

The great wealth of top breeding and strong herds that have featured Missouri Shorthorn history for well over half a century, is still carrying on today, a potent factor in the influence of breeding modern type good doing Shorthorn cattle.

Yes, Missouri continues to produce champion Shorthorns at major shows.

Come to Chillicothe, March 14th, and see this top offering of 23 bulls and 23 females. Ten of the bulls are coming two year olds and the remainder are excellent young prospects just ready for service in strong herds. The females include 18 open heifers, 5 cows with calves at foot, or very close to calving, several are imported females. We believe you will have a good chance to solve your herd bull problems here and add some top females. Be sure to attend our banquet and interesting meeting at the Strand Hotel in Chillicothe on the evening prior to the sale.

Missouri State Department of Agriculture Awards

The State of Missouri, Department of Agriculture, will award to all animals in each class that can qualify as blue ribbon, red ribbon, and white ribbon animals, their respective earned ribbons and a cash premium of \$6.00 for Blue, \$4.50 for Red, and \$3.00 for White.

These awards are made possible through an appropriation by the Missouri Legislature to encourage the production, distribution and use of better breeding animals in Missouri.

BLUE RIBBON Animals are excellent individuals.

Only animals of outstanding quality, unusually good type, symmetry, and conformation, in sufficiently good flesh and adequately fitted to demonstrate fully their qualifications will be placed in this group. These are animals of unusual merit that would in every case be a valuable addition to the top breeding herds of the state.

RED RIBBON Animals are superior individuals.

Only animals of superior quality, of good type and without any major defect, plainly demonstrating the superiority of their qualifications will be placed in this group. These animals should be sufficiently good to improve any commercial herd and most small breeders' herds.

WHITE RIBBON Animals are good individuals.

Animals of somewhat less desirable type and with one or more rather objectionable characteristics may be placed in this group. These are animals that would improve commercial herds and would in every case be superior to grade and scrub animals.

Animals which are not superior to high grade stock will be unclassified.

Rollo E. Singleton of the Livestock Division will distribute the awards at the show starting at 9:30 a.m. on Sale Day.
